PROFESSIONAL SUMMARY

Innovative and detail-oriented Frontend Web Developer with a strong foundation in modern JavaScript frameworks, specifically React. Passionate about crafting immersive, responsive, and highly performant digital experiences. Adept at translating complex UI/UX designs into scalable, maintainable code using tools like Tailwind CSS and Vite. Strong problem-solving skills and a continuous learner aiming to build impactful, user-centric web applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Tools & Ecosystem: Vite, React Router, Git, GitHub, VS Code, npm

UI / Design: Responsive Web Design, Glassmorphism, CSS Animations, SVG Integration

Core Concepts: Single Page Applications (SPA), Component-Based Architecture, RESTful APIs

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer

Jan 2024 – Present

Independent Projects | Rawalpindi, Pakistan

- Architected and developed a modern, fully responsive personal portfolio and business websites using React, Vite, and Tailwind CSS.
- Implemented advanced UI/UX concepts including glassmorphism layouts, sticky navigation bars, and custom hover animations to drastically enhance user engagement.
- Utilized React Router for seamless Single Page Application (SPA) navigation across multiple dynamic views without page reloads.
- Optimized web assets and modular component structures to ensure maximum performance, maintainability, and cross-browser compatibility.

Web Development Intern

Jun 2023 – Dec 2023

Tech Solutions [Placeholder] | Islamabad, Pakistan

- Collaborated closely with senior developers and designers to build and maintain responsive user interfaces for client web applications.
- Translated Figma design mockups into pixel-perfect, functional HTML, CSS, and JavaScript components.
- Participated in daily stand-ups, code reviews, and adopted version control best practices using Git and GitHub.

KEY PROJECTS

Interactive Developer Portfolio

2026

- Engineered a multi-page interactive portfolio featuring custom dark-mode aesthetics, dynamic neon accents, and optimized image rendering.
- Integrated modular React components (Hero, Navbar, Stats, Reviews, Contact) ensuring highly readable and scalable code.
- Incorporated downloadable resume functionalities and direct social media integrations via inline SVG styling.

E-Commerce Dashboard Interface

2025

- Developed a responsive admin dashboard prototype for managing products and tracking user analytics using React and Tailwind CSS.
- Utilized dynamic state management to filter and sort mock data sets in real-time.

EDUCATION

Bachelor of Science in Computer Science

Graduated: 2024
